utter

To whom it may concern,

Utter is an application that aims to improve fluency in the English language through conversational chatbots and live sessions with English tutors.

The Utter Internship Program offers 3-month, part-time, work-from-home internships. Under this program, **Vijith Varatharajan** interned with Utter as an English tutor from **22 June to 30 September, 2019.**

His responsibilities as an intern included -

- Undergoing intensive training for teaching conversational fluency to ESL (English as a second Language) learners.
- Conducting live tutoring sessions with Utter's learners across different grades of fluency on an array of topics ranging from grammar to everyday conversation.
- Using Utter's unique teaching approaches and features to deliver strong learning outcomes.

Vijith displayed commendable sincerity and dedication to his work and was wonderful to work with. We wish him all the best for his future endeavours.
